Learning Outcomes:

As a result of participating in this educational activity, learners will be able to:

To be able to list the key documents that direct the Standards of Practice;
Discuss the 21st Century Framework for School Nursing Practice principle Leadership;
Discuss the 21st Century Framework for School Nursing Practice principle Quality Improvement;
Discuss the 21st Century Framework for School Nursing Practice principle Care Coordination;
Discuss the 21st Century Framework for School Nursing Practice principle Community/Public Health; and
Identify areas for improvement in their everyday individual school nurse practice.

About the Session:

The Framework for 21st Century School Nursing Practice™ provides structure and focus for the key principles and components of current day, evidence-based school nursing practice. It is aligned with the Whole School, Whole Community, Whole Child model that calls for a collaborative approach to learning and health. This interactive workshop will provide the learner with an overview of The Framework for 21st Century School Nursing Practice™ presented by nationally renowned school nurse leaders. During this live, facilitated program, the knowledge, skills and resources needed to implement all five principles of the Framework will be shared with the attendees. In addition, participants will have the opportunity to apply each of the principles and selected components of the Framework using real life case scenarios in small group discussions. Participants will reflect on their current practice and create a personal plan to implement the Framework into their own everyday school nursing practice.

Why this is important to a school nurse:

The purpose of this activity is to enable the learner to have the knowledge and skills to develop a plan to incorporate the principles of the 21st Century Framework of School Nursing Practice into their school nursing practice.
